****1. Introduction****

Welcome to the Intelligent Ridesharing System user manual. This manual provides instructions for using our ridesharing platform efficiently.

****2. System Requirements****

Before using the system, please ensure that your device meets the following requirements:

- A modern web browser (Google Chrome, Mozilla Firefox, Safari)
- Internet connection
- GPS-enabled device (for tracking rides)
- A valid account on the platform

****3. Installation****

The Intelligent Ridesharing System is a web-based platform, and no installation is required. You can access it through your web browser by visiting [website URL].

****4. Getting Started****

To get started, follow these steps:

- Open your web browser.
- Visit [website URL].
- Log in to your account or sign up if you are a new user.

****5. Booking a Ride****

To book a ride, follow these steps:

1. Log in to your account.
2. Click on "Book a Ride."
3. Enter your pickup and drop-off locations.
4. Select your preferred ride type (e.g., shared, premium).
5. Review the estimated fare and confirm your booking.

****6. Tracking Your Ride****

You can track your ride in real-time by following these steps:

1. After booking a ride, you'll receive the details of your driver and vehicle.

2. Open the ride tracking feature in the app.
3. Monitor the driver's location and estimated time of arrival.

****7. Managing Your Account****

To manage your account, use the following options:

- Edit your profile: Update your personal information.
- Payment options: Add or change your payment method.
- Ride history: View your past rides and receipts.
- Help and support: Access customer support and FAQs.

****8. Troubleshooting****

If you encounter issues while using the system, consult our troubleshooting guide in the FAQ section.

****9. FAQ****

Visit the FAQ section for answers to common questions and troubleshooting tips.

****10. Contact Support****

For further assistance, contact our customer support team at [support email or phone number].
